

Mission Statement

We build upon families' strengths, to empower parents and professionals to achieve the strongest possible outcomes for students with disabilities and to enhance the quality of life for children and young adults with disabilities.

Guiding Principles

Parents who know their children's rights can better advocate for their children.

The home, school and community are vital components of an individualized education program.

All children are capable of learning and good behavior.

All children have individual strengths and talents.

Students are entitled to appropriate technology, flexible learning environments, and accessible curriculum.

School districts and parents are capable of a cooperative relationship that benefits the child.
